

AUTOMATION UNIVERSITY PROGRAMME EASTERN EUROPE FY09								
	Hands On Room A	Hands On Room B	Hands On Room C	Hands On Room D	Hands On Room E	Hands On Room F	Room G	
Track Description	Live Demonstrations							Track Description
From 8:00	Registration and coffee - show floor open - 8.45 hrs. Welcome Speech							From 8:00
9:00	AW1/AT1 Stratix 8000 - The Next Generation Ethernet Switch - Best of Both Worlds	BW1/BT1 Integrated Architecture : Putting the pieces together	CW1/CT1 Introduction to Safe-Speed Control Techniques with the New Safe-Speed Core Technology	DW1/DT1 Introduction to Kinetix Integrated Motion featuring tools to streamline design, program and start up	EW1/ET1 Process Control Configuration in ControlLogix	FW1/FT1 Introduction to the benefits of integrating FactoryTalk View products into your architecture	GW1/GT1 Connected Components - Sized to Meet Your Needs for Simple and Smart Machine Control	9:00
10:00								10:00
11:00	Coffee break at show floor							11:00
11:15	AW2/AT2 EtherNet/IP - Taking Advantage of 21st century EtherNet Design	BW2/BT2 Fundamentals of Logix	CW2/CT2 FactoryTalk Metrics OEE and Performance Measurements	DW2/DT2 Experiment with Speed & Position Control Solutions - from Velocity Control to Coordinated Motion Control	EW2/ET2 Process Improvements with Runtime Modifications of Integrated Architecture Systems	FW2/FT2 Exploring additional functionality in a combined visualisation FactoryTalk View architecture	GW2/GT2 RSLogix 5000 - Reduce Development Time with Advanced Tips and Tricks	11:15
12:15	AW3/AT3 EtherNet/IP - Taking Advantage of 21st century EtherNet Design		CW3/CT3 FactoryTalk VantagePoint Dashboards for Manufacturing Intelligence					12:15
13:15	Lunch at show floor							13:15
14:15	AW4/AT4 RSLogix 5000 Version17 Newest Features - Discover the Differences	BW3/BT3 Fundamentals of EtherNet/IP	CW4/CT4 FactoryTalk Historian & FactoryTalk VantagePoint World class data gathering and analysis	DW3/DT3 Integrated Condition Monitoring for Your Control System using Intelligent Motor Control Solutions and Condition Monitoring	EW3/ET3 Plug & Play with Rockwell Automation Safety Components	FW3/FT3 Continuous Process - Advanced Process Control Instructions with Logix	GW3/GT3 Intelligent Motor Control with PowerFlex AC Drives - Advanced Features and Applications	14:15
15:15			CW5/CT5 FactoryTalk ViewPoint Web-enable your HMI				GW4/GT4 Dynamic Solutions for Your Mechatronic Applications	15:15
16:15	Coffee break at show floor							16:15
16:30	AW5/AT5 Connected Components - Sized to Meet Your Needs for Simple and Smart Machine Control	BW4/BT4 Add On Instructions - How to Create and Apply User-defined Functions in Logix	CW6/CT6 Building a Batch Solution using the S88 Logix PhaseManager	DW4/DT4 Optimise Performance and Reliability in Your Control System using Intelligent Motor Control Solutions and Condition Monitoring	EW4/ET4 Integrating Safety into Your Architecture with GuardLogix and Ethernet/IP safety devices	FW4/FT4 Process Device Configuration and Calibration using Asset Management Software (24 seats)	GW5/GT5 Process Automation Systems : Plant-wide, Flexible and Scalable Solutions for Process Control	16:30
17:30								17:30
18:30	Coffee break at show floor							18:30
	Room H	Presentation Room I	Presentation Room J	Presentation Room K	Presentation Room L	Show Floor		
Track Description	Energy Saving Solutions				Rockwell Automation Partners	Guided Tour	Track Description	
From 8:00	Registration and coffee - show floor open - 8.45 hrs. Welcome Speech							
9:00	HW1/HT1 Energy Efficiency with PowerFlex Medium Voltage Drives	IW1/IT1 Factory Talk Meet your production challenges with Rockwell Software solutions	JW1/JT1 Prvni Elektro : Use of Drives for Belt Conveyor System - Benefits and Savings	KW1/KT1 Machine Builder (OEM) Solutions	LW1/LT1 Fluke : How to Assure a Reliable Industrial Network			9:00
10:00		IW2/IT2 Asset Management Manage your assets, independent of vendor	JW2/JT2 Wireless - What's Available Today and Future Direction	KW2/KT2 Integrated Architecture: Enabling Manufacturing Convergence	LW2/LT2 Spectrum Controls : Reduce maintenance and operating costs using HART protocol I/O products.	SW1/ST1: Guided Show Floor Tour		10:00
11:00	Coffee break at show floor							
11:15	HW2/HT2 Optimum Energy Utilization in Gas Storage and Petrochemical Industry Segments with reduction in energy expenditures	IW3/IT3 Drives and Servo Controllers - Which to Choose for your Speed or Positioning Applications	JW3/JT3 The changing world of Machine Safety Trends and Standards	KW3/KT3 Mechatronic Solutions ; Increasing the performance of electromechanical applications using Integrated Architecture	LW3/LT3 Endress+Hauser and Rockwell Automation Integration - Making Instrumentation and Process Automation System Interoperability Easy			11:15
12:15		IW4/IT4 Medium Voltage AC Drives - when to choose low-voltage or medium-voltage solutions			LW4/LT4 Cisco Systems Inc & Rockwell Automation - Ethernet/IP Infrastructure Design			12:15
13:15	Lunch at show floor							
14:15	HW3/HT3 Consumer Packaged Goods Industry - Implementing an Energy Reduction Program	IW5/IT5 Reduce energy costs through Intelligent Motor Control	JW4/JT4 Integrated Safety Solutions	KW4/KT4 Legacy Process Systems (DCS) Migrations	LW5/LT5 Molex : Integrating Profibus and Modbus devices in your Rockwell Architecture			14:15
15:15		IW6/IT6 Powerflex 755 - introduction of new advanced AC drive	JW5/JT5 Increase machine productivity and uptime with safety solutions from Rockwell Automation (demo)	KW5/KT5 Process Automation System - PlantPAx	LW6/LT6 eWON : Industrial Remote Access Solutions	SW2/ST2: Guided Show Floor Tour		15:15
16:15	Coffee break at show floor							
16:30	HW4/HT4 How Services and Solutions can benefit your Business	IW7/IT7 The benefits of FactoryTalk View : plantwide visibility through a single, integrated & scalable solution (Demo)	JW6/JT6 Intelligent Motor Control - Features and Benefits	KW6/KT6 Compact Machine Solutions - increased capabilities to maximise your small and medium size machine	LW7/LT7 Prosoft Technology : Industrial wireless networking improves reliability and efficiency			16:30
17:30	HW5/HT5 Addressing the needs of End users through our Recognized Systems Integrators Partners		JW7/JT7 RFID & New sensing technologies	KW7/KT7 Electrical motor producer - Presentation of technical solutions for motor applications.	LW8/LT8 Sumo : Use ControlLogix for control of power generation systems			17:30
18:30	Coffee break at show floor							18:30
				Hands-On Session	Demonstration	Presentation
